

No Money?

Or want to be part of a community?

Could you walk a dog?

Or fix a leak?

Or bake a cake?

Or teach a lesson?

## Join Manchester LETS!

Manchester LETS (Local Exchange Trading Scheme) is a community network which allows people to swap goods and services through a mutual credit system. People can help other members of their community and get help from the community in return. You can earn units of an alternative currency, the em, by doing something for someone else, like washing their car. You can then spend those ems on something you need, like help writing an official letter, or cooking for a party. Earning and spending ems means that you don't have to find someone to directly swap services with - you can be paid ems by one person and pay them to another. Check us out at the website below.
